# Merry Christmas

## A Word From Our Chapter Director

Well, December is here and 2009 is nearly over. Thanksgiving is over and Christmas and New Years are our next holidays to celebrate. With riding essentially over for this year, it is hard to get in gear to write about motorcycling. There are some fun things coming up that are related to our motorcycling activities even if we can't ride.

Mike and Ginny Schelkun, CD

From NY District Director Paul Wood, January 16 is the date for the NY District meeting. It will be at the North Syracuse Fire Hall. NY District staff, Chapter officers and their Treasurers are expected to attend. We may want webmasters to attend also. A list of hotels in the area can be found in the district newsletter.

Our GWRRA Chapter W After Holiday Banquet is scheduled for Saturday, January 30 at Rick's Prime Rib House on Buffalo Road beginning at 6:00 P.M. This will be a sit down served dinner. A sign up sheet with menu selections and instructions is being sent separately by email. You can download the sign up sheet, fill it out and

Here we are in the seasons of Thanksgiving, Christmas, New Years and PMS ( parked motorcycle syndrome ). Since I don't have any info to put out about the rides from last month or the rides for next month, I would like to talk about some of the things I am thankful for. I am not listing these in any particular order, but as they come to me.

I am thankful for my wife. As most of you know, it's not an easy job to put up with my sense of humor and idiosyncrasies ( or would that be IDIOTsyncrasies? ). Dee is a wonderful partner and makes my life very easy and enjoyable.

I am thankful for my children and grandchildren. Each one of them is a unique individual and contribute to me being proud to be a "Daddy" and "Grampie".

I am thankful for my friends. If you are reading this, I consider you to be one of them, I have always considered myself to be a "people" person and enjoy having friends around me to converse and share experiences with. I thank each of you for the times we have spent together and I'm looking forward to many more.

I am thankful for this wonderful country we live in with the freedom we have to assemble together, worship together, travel together and make choices on how we

**CD, from page 1**

send it to me. If you need a hard copy, contact me and I will get one to you. These need to be returned to me by Wednesday, January 20 with full payment.

As mentioned by Greg Eames at our last gathering, the “winter thing” is coming up in Maryland in January. If we can get 6 members to attend, we will get 2 dash for cash points. Contact Greg for details.

Since, this will be the last newsletter of 2009 Ginny and I want to say thanks to everyone on staff for your help. We also want to thank those who are jam’s, just a member, for helping when needed, for attending many of our and other chapter activities, for leading rides, and just being a part of the fun.

Ride safe on 2,3, or 4 wheels

Mike and Ginny

**ACD, from page 1**

live and what we do. It’s great to be able to go where I want, when I want (as long as it’s okay with Dee).

**HAPPY HOLIDAYS TO ALL!!**

One other thought;

We are planning on starting next year’s Dash for Cash out with a bang by attending the Maryland district’s Winterthing in Ocean City, Maryland from the 7th to the 9th of January. I have heard that it is a good time, but the more of us that go, the more fun we’ll have. If anybody is interested or has questions, contact me.

Greg & Dee Eames, Assistant Chapter Directors

BKW = Burger King West, Pixley Rd., near Buffalo Rd., CR= Charlie Riedel's Rt. 96, just south of the Thruway

## Breaking News from National...

long, long time ago (33 years) in a galaxy far, far away (Phoenix, Arizona), I was a much younger man. I had all my hair and it was mostly brownish, if you can believe that. Anyway, 6 other good people and I started GWRRA in a local "Denny's" restaurant. The purpose was to bring together folks that rode Gold Wings and wanted to learn more about them and have fun doing it. We rode all day ... whenever we could, and had a great time. And, believe it or not, we hardly ever rode to a Dairy Queen.

I look back on those days with a great deal of fondness. Everyone had a passion for this "way of life," and we were all proud of what GWRRA was, and could become. Back then, motorcycle safety wasn't part of discussions any "knowledgeable" biker had. We were, however, very interested in the Skills thereof ... even though a few of us felt we knew everything there was to know about skillful riding. After all, we had been riding since we were born.

Someone came up with Bike Games at our first Wing Ding and lo and behold, there was a LOT of stuff about skill-full riding that we hadn't learned! And, as is usual today, it took the "kids" to show us our ignorance. About that time, the MSF was founded and we, as an organization, jumped on their bandwagon with both wheels. And thus was born the concept of a Rider Education Division of GWRRA ... a Division that became the envy of many biking organizations today.

Thinking of those early days, reminds me how important it was for us to be the best we could be ... and when we learned how to share our experiences and skills with others, we really started clicking as a group. And boy did we grow! Personally and as an organization!

Now, I look around and see that we are in 52 countries and have over 74,000 Members in this organization, and I wonder ...

Do these Members today still feel the way we did? Do they still want to learn and become all they can with their motorcycle? Do they still have pride in what GWRRA

has accomplished, because of themselves? Do they still enjoy sharing with others? Are they still learning from the "kids"? Do they still have the passion ..... ?

GWRRA has always been about the people. The bikes just brought us together. And a finer bunch of people can't be found. Now the questions are, have you hugged your bike today? Have you shared your GWRRA experience with another? Have your accomplishments within GWRRA given you pride? Hasn't that pride made a better organization?

The legacy of GWRRA, that you and I leave behind, is all about us and our efforts. People won't know it unless we tell them, unless we share, and thereby grow the legacy.

If you want to leave behind a good legacy for your children and your friends that you've yet to meet, just share GWRRA with them. You, and they, will be glad you did.

Ride safely and well.

Paul Hildebrand  
Founder, GWRRA

# Region B News

*From the Region Assistant Directors  
Dave & Crystal Godin*

Yes, it's that time. All autumn décor is put away and plans are forming to celebrate the upcoming winter holidays. This time of year can be quite hectic for some with shopping, decorating and preparing for family and visiting guests.

Within GWRRRA, we are a family. We all share a similar goal: to have fun, be safe and acquire knowledge with our friends, our motorcycling family. As far as relatives go, there will be disagreements. Just think back a few days ago to Thanksgiving, was everything picture perfect the entire day? At times, we must come to the conclusion we agree to disagree. Take this time to reflect on 2009. Could you have treated

another volunteer within the organization with more respect? Could a situation been handled better or with less friction? Are you carrying resentment towards someone for a job well done or not done well enough? Would you like to be treated in the manner you have treated others? The questions could go on and on and this article could get quite lengthy.

*Dave & Crystal Godin*

Consider making your New Year's resolution to be kinder, have more patience and be less aggressive to your co-workers, your friends, family, including us...your GWRRRA family. Remember, we are all volunteers with a similar focus. Remember, this is supposed to be FUN! So take a deep breath, take a step back and relax.

On a higher note, Dave and I want to first and foremost thank all who have welcomed us and

# Wing Ding is Going Downtown!

Next July, Gold Wings will take over downtown Des Moines, Iowa as Wing Ding makes not only its first appearance in the Hawkeye State but its first appearance in a downtown setting along the riverbanks of the Des Moines River!

Wing Ding 32 is scheduled for June 30 - July 3, 2010 at the Iowa Events Center. For your convenience, show dates have been changed to Wednesday through Saturday to allow more weekend travel time! Registrations are already rolling in at a record-breaking pace and we expect a great turnout as we prepare to 'Meet in the Middle'!

## **Iowa Events Center**

The Iowa Events Center features four facilities and endless possibilities under one roof. You will be able to browse the many vendors located in Hy-Vee Hall and Halls B&C of Veterans Memorial Coliseum - almost 150,000 square feet of exhibit space! You can take a load off or get a bite to eat in Hall A of the Veterans Memorial Auditorium where the food court along with a stage for live entertainment will be setup throughout the event!

Other important facts about the center include:

- Connected to over 4 miles of climate-controlled Skywalks.
- Over 1700 hotel rooms in downtown; 9,000 metro-wide
- Over 80 downtown restaurants
- Over 9100 parking spaces
- 1300 parking spaces on-site plus street closures and an adjacent multi-level garage all FREE to Wing Ding attendees!

Within walking distance of hotels, restaurants, shops, salons and more, we think you'll agree that the excitement of Wing Ding coupled with the ambience of a downtown setting make for what is sure to be an exciting event!

## **Region B Responsibilities: Light Parade and Grand Parade**

**(with assistance from Regions I & K)**

## NY-W Rider Educator's Corner

Gregg Miller

For those of you who attended our October gathering, the topic presented dealt with traction hazards.

During the fall season, several traction hazards can combine to result in a dangerous “cocktail”. Oil, water, sand, gravel, and fallen leaves have their own dangers, but mixing them just raises the stakes. We all know that during the regular riding season, oil on a road is something to avoid by riding in the inside and outside third of the lane. Even when the road is dry, it’s hard to determine if oil is fresh and a danger at 55 mph. And the danger in taking a curve too fast can be multiplied when sand and/or gravel are unexpectedly present.

Now let’s add dry or wet leaves to the mix. This time of year, leaves in the road can hide other hazards - potholes and other objects that could affect steering. Leaves can also mask objects near the shoulder, like small animals, roadkill, broken pavement, trash, etc. Blowing leaves can also mask our vision if a gust of wind throws them in our faces.

Always remember to keep safe following distances, continually scan ahead, and be prepared for that gust of wind when leaves are crossing your path.

This month’s topic deals with the common link between an Emergency Medical Technician’s (EMT’s) jump bag and our own safety apparel.

I brought in my own jump bag from former EMT days to this month’s gathering. I still carry it in the Jeep just in case of emergencies. There are items in that bag that I can’t use on anyone other than immediate family members, but still, it holds items useful in other instances.

The bag includes a ladder splint, roll bandages, gauze pads, trauma sheers, bite stick, BP cuff, stethoscope, latex gloves, CPR mask, bag-valve mask, paper and surgical tape – you get the picture. How does all of this relate to a rider and co-rider? Very simply put, what we

wear while riding can help minimize injuries and potential loss of life in case of an accident, the way an EMT’s jump bag provides tools to help them treat a patient in the field, and hopefully save a life.

For those of you who attended the 2009 Bi-State Rally in Norwich, NY and observed the accident scene scenario played out, you noticed how all EMS providers worked together with the riders group who came upon the accident scene first. Once fire and medic arrived, I hope you tuned in on how the EMTs took care of the accident victims, especially the two on the motorcycle.

Helmet laws are disputed across the country, and many of our riding brothers and sisters are all too willing to believe they can survive a serious head injury incurred in an accident. Veteran actor Gary Busey was fortunate to survive a crash after sustaining a serious head injury several years ago. But unfortunately, he didn’t learn from it. “Brain buckets”, as helmets have been nicknamed in the past, serve not only to keep our skulls from being broken in an accident, but they also serve as cervical spine stabilization. There’s no great quality of life to survive a serious head injury without a helmet if you’re paralyzed due to a broken cervical spine.

For those of us who have completed the first aid/CPR training, removal of a helmet from an injured motorcyclist is a no-no, only to be done by trained EMTs. It’s a two-person operation, and is replaced by other methods to keep the cervical spine in alignment during transport to a hospital. Helmet removal is normally done only when there is danger of a compromised airway. So don’t attempt to do this yourself if you come across an accident scene!

Our other personal safety clothing consisting of jeans, over the ankle footwear, jackets (with or without body armor), and gloves all serve a similar purpose – to help protect our body parts from injury within the scope of their construction.

So keep up the good work by wearing the proper clothing, and safety gear. That goes for those who are putting off winterizing their bikes for as long as they can; and for those of us who already have, and are looking forward to next season.

Happy Thanksgiving to everyone, — Gregg

## 2009-10 Winter Ride Schedule

*Meet at BKW at 6:30 PM to ride as a group or meet at the restaurant about 7:00 PM.*

**COOL!**

I know, you knew that all along.

## Region B Responsibilities: (cont. from page 7)

This will be an exciting year as Wing Ding will take place in a downtown setting at a convention center as opposed to a fairground setting. This will make for an intimate, upscale setting more suitable for that of your annual international gathering!

The City of Des Moines is very enthusiastic and is rolling out the red carpet in anticipation of the event including closing off 5<sup>th</sup> Avenue in front of the venue to allow for more parking and provide an area for the demo rides, etc. They have also designated an entire multi-level 'Park & Ride' garage which will be available free for Wing Ding attendees. They are still finalizing the details of their welcome party but it will likely be at a large casino/track next to Bass Pro (no capacity limits). We are also working with them to integrate GWRRA events into the community more such as doing the light parade at a suburban location featuring a farmers market, live music, etc. We are also looking to do the Drill Team performance at the end of the Grand Parade which will go out to another suburb who is hosting a festival/celebration that evening.

Those staying downtown (including all of you) will be within walking distance and will have the benefit of the downtown skywalk system to avoid the summer heat! This will also help reduce association costs related to vehicles, vans, etc.

## Featured Associate at Home Office

by *Edward Price*

Marketing Director

My history with GWRRA began way back at Wing Ding 1, when they were looking for volunteers. I volunteered for the off-bike games and helped folks change in and out of rain gear along 16th street at the Point Hilton during the first Wing Ding in 1979. That's when I got to meet Paul and Shirley (GWRRA's Founders) and the best people from around the country who drove these huge motorcycles called Gold Wings.

The very next year I found myself in Denver, owning a Gold Wing and the first Area Rep for Colorado; proceeded to become the state director there and later GWRRA's Executive Director from 1991-1996.

After a short leave, returning to college to get my degree in Business Management Systems and doing a few other things, I returned to GWRRA in 2001, as its Event Manager and now serve as its Marketing Director.

Some of my job duties include: searching/managing Member benefits, marketing GWRRA internally and externally, finding/negotiating Wing Ding sites, publishing the *Wingin' It* e-Newsletter, as well other social media, and assisting in some operational aspects of GWRRA.

I am currently divorced and have two grown sons, Danny and David. One has my three grandchildren—Mackenzie, 10; Nolan, 6; and Landon, almost 2! In my spare time, I enjoy traveling, dancing, cooking, and music.

I'm here to help; and if I can ever assist you, please let me know.
